📍 Kigali, Rwanda

PROFILE

Final-year Information Technology student at Adventist University of Central Africa (AUCA), majoring in Networks and Communication Systems, with an Overall GPA of 14.77/20 and a Major GPA of 15.16/20 (Distinction). Holds a solid foundation in Java OOP, database design, computer networks, and RESTful API development, backed by hands-on academic projects and industry-recognised certifications. Eager to grow through mentorship and real-world project exposure in the AmaliTech Apprenticeship Programme (Java Backend track) and transition into internationally competitive software engineering.

TECHNICAL SKILLS

Core Java	OOP, Collections Framework, Exception Handling, Generics, Java 8+ (Streams, Lambdas)
Frameworks	Spring Boot (basics), Hibernate ORM, RMI, Maven — familiar with MVC pattern
Desktop / UI	Java Swing — built production-grade desktop application with role-based access
Databases	MySQL, PostgreSQL — CRUD, joins, indexing, triggers, foreign keys, schema design
Networking	Routing & Switching, Computer Networks, TCP/IP, Network Operations (Advanced)
Version Control	Git, GitHub — branching, pull requests, collaborative workflows
Tools & IDEs	IntelliJ IDEA, Eclipse, VS Code, Postman, Linux CLI (Ubuntu)
Cloud / DevOps	Kubernetes & Cloud Native (LFS250 — Linux Foundation), basic CI/CD awareness

EDUCATION

Bachelor of Science in Information Technology — Adventist University of Central Africa (AUCA)

2024 – 2026 (Final Year) | Kigali, Rwanda | Overall GPA: 14.77/20 | Major GPA: 15.16/20 (Distinction)

- Major: Networks and Communication Systems — top academic scores in Computer Networks (17.78), Routing & Switching (18.60), OOP (16.20), Operating Systems (17.60), Programming with C (16.80).
- Relevant coursework: Object-Oriented Programming, Database Management Systems, Software Engineering, Web Design, Computer Networks, Routing & Switching, Operating Systems, Emerging Technologies.
- Final-year project: Designed and built an Urban Bus Fleet Management System using Java, MySQL, Hibernate ORM, Swing and RMI, featuring role-based access control for admin and employee roles.

PROJECTS

Urban Bus Fleet Management System · Final Year Academic Project

2025 – 2026 | Java · MySQL · Hibernate ORM · Swing · RMI

- Built a full-featured desktop application in Java (Swing + RMI) for managing urban bus fleets, routes, drivers, and schedules.
- Designed a relational MySQL schema with foreign key constraints, indexed queries, and triggers to enforce data integrity.
- Implemented Hibernate ORM for seamless Java–database mapping, reducing raw SQL boilerplate by over 60%.
- Built role-based access control (admin vs. employee) with authentication and session management.
- Applied MVC architecture throughout; documented the system with UML class and sequence diagrams.

CERTIFICATIONS

- OOP in Java — Simplilearn (December 2025)
- Kubernetes and Cloud Native Essentials (LFS250) — The Linux Foundation (June 2025)
- Advanced Network Operations 2.0 — Network industry certification
- Introduction to Network Operations — Foundational networking certification

LANGUAGES & ATTRIBUTES

Languages

English (Fluent — written & spoken) | Kinyarwanda (Native) | French (Basic)

Key Attributes

Growth mindset · Self-driven · Team player · Problem solver · Accountable · Fast learner

Applying for: AmaliTech Apprenticeship Programme — July 2026 Intake | Track: Java Backend Development | Kigali, Rwanda
